MANUSHREE UPADHYAYA

COMPUTER SCIENCE GRADUATE | JUNIOR DEVELOPER

Biratnagar, Nepal | Open to relocation to Kathmandu
9849503865 | manushreeo61@gmail.com
github.com/manuahree | LinkedIn: Manushree Upadhyaya

PROFILE

Computer Science graduate with academic experience in Django, MySQL and C#. Built an individual appointment-booking application and a Unity routing simulation. Seeking a junior developer role focused on practical software tasks and learning through code review.

SKILLS

Development: Python, Django, MySQL, HTML5, CSS, JavaScript; C#, Unity
Tools: Git, Jira, Excel, Figma
Academic foundations: A* pathfinding, ant colony optimization, team coordination

ACADEMIC PROJECTS

Doctor's Appointment and Consultation Web Application

Individual final-year project | December 2024 - May 2025 | Django, MySQL

- Built login and role-based workflows for three user roles: patient, doctor and super-admin.
- Added booking by doctor specialty, appointment acceptance, rejection and rescheduling.
- Added doctor blogs, patient comments, profile editing and admin user management. View source code.

City Delivery and Pathfinding Simulation

Three-part academic coursework | C#, Unity

- Used A* to guide an agent through a city, collect an item and return to a goal node.
- Added shared data for multiple vehicles and collision avoidance; combined ant colony routing with A*.

Restaurant Booking Web Application - Team Coordination

Academic team project | Jira, Git, Excel

- Coordinated team delivery by the coursework deadline using Jira, Git and Excel.
- Held progress meetings and identified and addressed project risks.

EDUCATION

Bachelor of Science with Honors - Route of study: Computer Science

University of Wolverhampton | Herald College Kathmandu
November 2021 - August 2025

CERTIFICATION

C# Intermediate | SoloLearn | November 2024
